

NantHealth, a member of the NantWorks ecosystem of companies, provides enterprise solutions that help businesses transform complex data into actionable insights. By offering efficient ways to move, interpret, and visualize complex and highly sensitive information, we enable customers in healthcare, life sciences, logistics, telecommunications and other industries to automate, understand and act on data while keeping it secure and scalable.

Our product portfolio comprises the latest technology in payer-provider collaboration platforms for real-time coverage decision support, and data solutions that provide multi-data analysis, reporting and professional services offerings. The OpenNMS Group, Inc., a NantHealth subsidiary, helps businesses monitor and manage network health and performance.
